3

years project

Sept 2017 – Aug 2020

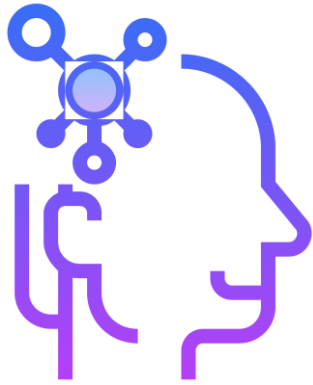

supported by Erasmus+  
program of the EU

aims to **strengthen the capacity** of those who  
work with the elderly

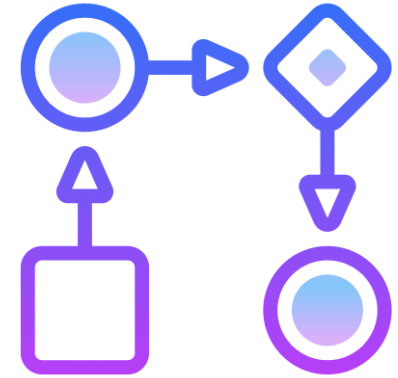

## project objectives:

to train staff of senior  
centers to identify &  
support elderly  
victims of abuse

to design an interactive  
training program

to contribute to  
stakeholders'  
implementation of elder  
abuse policy into practice

## target audiences of the trainings:

professionals that  
work at senior/day  
care centers

volunteers

seniors

# **the concept of** ONLINE TRAINING

## advantages of online education for the elderly care centers:

- it is usually **free of charge** or very affordable;
- available at any **geographical location**;
  - you don't have to find local experts to train your staff or send people anywhere for the in-person training
- it is especially good for training **volunteers** in your organization;
- it is easier to fit in a busy schedule.

Online education is a good way to train staff with very **little resources**.
